PRESIDENT'S MESSAGE

EXCITED TO CONNECT WITH YOU AT THE ANNUAL MEETING

Dear fellow shareholders,

I am happy to announce that shareholders are invited to join us in person for the 49th Annual Meeting of Ahtna Shareholders. The meeting will be held on Saturday, June 4, 2022 at the Glennallen High School gymnasium. We are very excited to be able to connect with you face to face after two years of conducting the meeting virtually due to COVID restrictions. Shareholders can also watch the meeting live stream at www.ahtnavote.com. Be sure to follow us on Facebook and check the Ahtna website for the latest meeting updates.

Shareholders are invited to submit comments, questions and concerns in advance of the meeting. To provide feedback and questions, complete and mail back the comment card included with your proxy packet or submit online at www.ahtna.com/shareholder-comments-and-questions by the May 13 deadline. Due to time constraints, we may not be able to answer all questions during the Annual Meeting.

One of the most important responsibilities of being an Ahtna shareholder is to vote in Ahtna elections and select well-qualified shareholders to serve on the Board of Directors. The Board is responsible for making balanced and informed decisions that are in alignment with the mission and vision of the corporation and the best interests of current and future Ahtna shareholders. Proxy voting will open on April 29. Your proxy materials include information on how to vote your proxy, with the easiest voting method being online using the eProxy website (www.ahtnavote.com). For the best chance at winning a proxy prize, vote online and by the May 13 early bird deadline. You can also attend the meeting and vote in person.

Ahtna Hwt'aene (Copper River People): Our Past, Our Future has been selected as this year's theme to honor Ahtna's early leaders and the groundwork they laid for the benefit and protection of our land and resources for future generations. A humble and strong people, early Ahtna leaders had no idea what we would become or how their teachings and words would ring in our ears; even for the future generations they would never know, yet they loved us. They wanted us to take care of one another. They wanted us to survive, and to thrive. I hope you will take the time to closely review all the materials in your proxy packet.

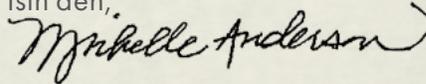

The Board of Directors has approved the addition of Katie John Day as a paid Ahtna holiday. In 2013, the Board unanimously passed a resolution declaring May 31st as Katie John Day and in 2019 the State of Alaska designated it as a day of honor. One of Ahtna's dearest and most beloved matriarchs, the late Katie John's work embodied the spirit of the Ahtna culture and people. In an effort to preserve her traditional way of life, she spearheaded the most significant litigation over subsistence rights in Alaska history. It is because of efforts like hers that many Alaska Native people's customary and traditional practices are recognized and protected today. Katie was known publicly for her determination, but to those who knew her she was also famous for her contagious smile and giving heart. She took in so many and made them feel like family. Her legacy lives on with her over 250 grandchildren, great grandchildren and great-great grandchildren. Wherever you may be on May 31st, please take a moment to remember Katie John and her many contributions to our Native people.

(Continued on page 2)

PRESIDENT'S MESSAGE – Continued from page 1

The Alaska Department of Fish and Game (ADF&G) Board of Game held a nine-day statewide meeting in Fairbanks in March, where they addressed more than 100 proposals for changes to statewide hunting and trapping regulations. This included hearing public testimony on a proposal that would eliminate Community Subsistence Hunts (CSH). According to the proposal, CSH hunts have “gone away from their original intent of subsistence living.” The proposal states that it has become a “free-for-all for any groups of 25 people.” The CSH has its flaws, but rather than doing away with it, we would like to see the ADF&G review the participating groups to ensure they meet the regulatory definition of “community.” We would like to see the ADF&G enforce the requirement that a “community” must be a group that has historically hunted in a customary and traditional way, not just any group of 25 people.

March 17, 2022 marked two years since our Anchorage office went virtual. The Glennallen office worked remotely from time to time, as did our other office locations outside of Alaska. We are gradually bringing staff back to our Anchorage and Glennallen Headquarters offices, and recently reopened the Anchorage office to the public. Shareholders who need assistance can make an appointment with staff by calling the Glennallen office at (907) 822-3476 or the Anchorage office at (907) 868-8250. Thank you for your continued patience and understanding as we endeavor to deliver vital shareholder support and services during this pandemic.

Tsin'aen,

Michelle Anderson, President
Ahtna, Incorporated

SEEKING VOLUNTEERS FOR GET OUT THE NATIVE VOTE

Get Out The Native Vote (GOTNV) is a non-partisan effort in Alaska to mobilize Alaska Native and American Indian voters. Shareholders can email AhtnaGOTNV@ahnta.net to volunteer or request more information.

AHTNA SUPPORTS TARA KATUK SWEENEY FOR CONGRESS

There is an historic opportunity in front of us. Never has Alaska been represented in our Nation's capital by an Alaska Native woman. Ahtna wants to help change that, and Tara Katuk Sweeney is the right person to make it happen.

Ahtna's Board of Directors voted to endorse Tara Sweeney and will be working with Alaskans for TARA to get her elected. **Why Tara Sweeney?** She is the most experienced and qualified candidate. **She was born and raised in rural Alaska and understands the challenges, needs and uniqueness of our people.**

When Alaska lost Congressman Don Young, we didn't just lose a vote in Congress. We lost the most experienced Congressman on the Hill, a veteran legislator with relationships, knowledge, and experience that gave him influence far beyond his single vote. We can't afford to elect someone whose only goal is to bolster their resume for the next job or work the cable news talk shows. Representing the nation's largest state, being one of 435 votes is a monumental undertaking. Alaska's new Congressman needs to be able to hit the ground running with relationships throughout the state and nation. Tara Sweeney is the only candidate in a field of four dozen who meets that criteria. **Congressman Young thought enough of Tara to make her Co-Chair of his re-election campaign.**

Tara is Iñupiat. She has experience working for an Alaska Native Corporation as well as an Alaska Governor and a United States President. She is an ASRC shareholder, a member of the Native Village of Barrow Traditional Iñupiat Government and the Community of the Arctic Slope. As she has throughout her career, when elected

Tara Sweeney will be an advocate for jobs and economic development as well as subsistence and protection of our lands. She grasps the disconnect of state and federal lawmakers surrounding what our communities need and how to best create opportunity in Alaska Native villages.

There is one candidate who stands head and shoulders over the rest of the field. Our Board and I are proud to say it: Tara Sweeney is the clear choice for Ahtna and Alaska. **Please join us in voting for Tara Sweeney for United States Congress when your ballot arrives in the mail later this month.**

CEO'S MESSAGE

CONTINUING OUR TREND OF FINANCIAL SUCCESS

Greetings shareholders,

We just wrapped up our annual audit, and I am pleased to report

that we were blessed in 2021 to continue our multi-year trend of financial success. Despite the negative impacts of the pandemic, the Ahtna family of companies has emerged stronger than ever. Our successful growth strategy has led to our revenues and profits reaching the second-highest total in company history, eclipsed only by 2020. It was also a record-setting year for shareholder benefits, with over \$9.8 million paid out in shareholder wages and benefits and \$9.4 million in dividend and Elder distributions.

Although 2021 was another successful year for Ahtna, we continue to monitor impacts to our business from rising inflation, employee turnover, supply chain delays and the pandemic. We have some bright spots on the horizon as we continue to follow the Infrastructure Bill opportunities in Alaska and throughout the United States. Backlog continues to remain strong, and we are eagerly awaiting award announcements for some large proposals that are outstanding. The Infrastructure Investment & Jobs Act will have limited impact on project starts and revenues in 2022 due to project planning/procurement and grant processes, but will lay the groundwork for new opportunities emerging in 2023.

Our solid reputation for quality service and reliable performance has opened new doors for our subsidiaries and produced follow-on work with current customers. Ahtna Logistics, LLC has been awarded a 5-year Artillery and Chemical Training contract recompetete. This contract provides training support, warehousing, procurement, and simulator lifecycle support (maintenance and parts fabrication) for the U.S. Army at seven locations, including international locations in Germany and Republic of Korea. The total contract value is \$12.2M if all options are fully exercised. Ahtna Support and Training Services, LLC (ASTS) was successful in renewal of their Migrant Protection Program (MPP) contract, which you can read more about on page 5. Staff has been busy conducting new/refresher training for MPP personnel, replenishing and preparing employee resources (uniforms/equipment), as well as procuring government consumables.

Ahtna Marine & Construction Company, LLC (AMCC) was the successful bidder on the Kings Bay Submarine Base dredging project, valued at \$12.1M, for the Jacksonville U.S. Army Corps of Engineers. The project duration is 11 months and entails hydraulically dredging approximately 1.3 million cubic yards for a distance of 8,500 feet. Also of note, the project is located in Camden County, Georgia and is the first large dredging project for AMCC outside of Florida. Shareholders have benefited from employment opportunities in dredging operations, and we are planning to send additional shareholders to support AMCC projects this year.

We recently held an AN Strategies and Growth meeting with our subsidiaries to discuss expectations and tactics. We conducted a brief recap of our 2021 performance, key wins, accomplishments and things we need to improve upon. Each of our subsidiary groups presented on 2022 plans, key financial targets, risks, strengths, weaknesses and investment areas. Strategic discussions for 2023 and beyond included topics such as obtaining security clearances, growing our core capabilities, pursuing subcontract work with large primes, increasing work for non-federal customers, making strategic investments and succession planning.

I would like to encourage you to exercise your shareholder rights by casting your proxies and joining us on June 4th for Ahtna's 49th Annual Shareholders Meeting. The Annual Meeting and communications such as this newsletter are how we keep you updated on company news and operations, and now we want to hear from you! See the comment card included in your proxy packet to learn how you can submit questions and comments to Ahtna's leadership team.

This year the Ahtna family of companies is proud to celebrate 50 years of providing exceptional service. There have been many changes in the business world over the past 50 years, but Ahtna's values remain a constant beacon. In the words of Ahtna's first president, the late Robert Marshall, in the first Ahtna Annual Report, "As a business we must be willing to stand on an equal footing with any business in the world, and we must have to be willing to be measured against the demands of the competitive business world." Those words still ring true today, and we will continue to put our best foot forward on behalf of our shareholders. Thank you for your continuing support.

Thank you,

Tom Maloney, Chief Executive Officer
Ahtna Netiyé'

The late Senator Ted Stevens congratulates the late Robert Marshall, representing Ahtna Inc., at the ceremony to award settlement checks under the Alaska Native Claims Settlement Act on July 1, 1972.

AHTNA GLOBAL HOLDS BLESSING IN KAUAI, HAWAII

On November 18, 2021, Ahtna Global, LLC and the U.S. Fish & Wildlife Service (USF&WS) held a traditional site blessing at our Repair Existing Intake Construction project at Hanalei National Wildlife Refuge in Kauai County, Hawaii. In Hawaiian culture, these blessings are traditionally held prior to commencing a building project. In this case it was especially important as the ridgeline that overlooks the Hanalei Valley where the project was built is believed to be an old "Heiau." Heiau is a sacred site sometimes used for human sacrifices, or rituals to ask the gods for improved fishing, favor in war times, etc. The blessing was performed by a local Hula Master. Hula Masters share and pass down all things related to Hawaiian culture— history, language, and of course dance. The date of the blessing was significant as the calendar is heavily influenced by the moon cycle. It was a full moon, which is the best time to provide offerings to the gods. Offerings were wrapped in tea leaves at the direction of the Hula Master and consisted of taro (a local crop, similar to a potato, grown in the Hanalei Valley and thought to be the plant Hawaiians were sprouted from), water (it rains all the time in this area and water is considered sacred), and words.

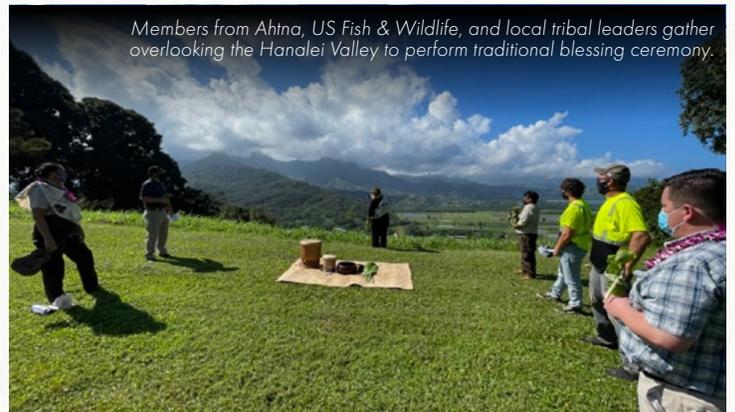

The Hawaiian and Ahtna people have a connection as indigenous people who are deeply tied to their environment. Ahtna Board member Grant Rebne represented Ahtna. He spoke a few words in Ahtna Athabascan, offering a thank you from Ahtna and its people. He then repeated it in English.

"Ghelaay ghisuun kulaen. Natu gheli koltsen. The mountains are beautiful, and the ocean smells great. We thank you for the opportunity to work with you and your people."

After the chanting, drums, and offerings, the Ahtna and USF&WS staff enjoyed local Hawaiian food and camaraderie. Grant brought some delicious smoked Copper River salmon to share.

Board member Grant Rebne, Site Superintendent Alan Christman, and Project Engineer JJ Christy standing on project site at the mouth of the intake.

Members from Ahtna, US Fish & Wildlife, and local tribal leaders gather overlooking the Hanalei Valley to perform traditional blessing ceremony.

LONGTIME ACPPC EMPLOYEE JERRY CHARLEY RETIRES

Shareholder Jerry Charley has retired from Ahtna Construction & Primary Products Company, LLC (ACPPC) after over 30 years with the company. Staff celebrated his years of service and wished him well at a retirement party held on January 11th at Tolsona Lake Lodge. The Ahtna Board of Directors and staff would like to congratulate Jerry on a job well done and retirement well deserved!

ACPPC GEARING UP FOR TANANA SILL GROIN PROJECT IN SALCHA, ALASKA

BY MICHAEL HIMLER, CONSTRUCTION MANAGER, ACPPC

Ahtna Construction & Primary Products Company, LLC (ACPPC) is working with the U.S. Army Corps of Engineers (USACE), Alaska District, to prevent future erosion of the Chena River Lakes area. The \$8.9 million Repair Tanana Sill Groin Chena River Lakes Flood Control Project consists of the placement of class IV riprap onto the existing sill groin slope protection. The existing sill groin consists of smaller riprap and is subjected to extreme weather and severe spring breakup conditions, leading to erosion.

Work is being performed at the Cantwell Panorama Mountain Rock Quarry (approximately MP 217 of the Parks Highway) and Tanana Sill Groin locations. Work at the Cantwell Rock Quarry will consist of riprap production and sorting, vehicle/material scaling, and loading for transport via double-side dump trucks to North Pole. Deliverables include pre-construction documents, Quality Control Plan, Safety Plan, Storm Water Pollution Prevention Plan (SWPPP), material quality/gradation tests, daily reports, schedule updates, etc.

This project is unique since Ahtna, Inc. (Land and Resources Dept.) is providing the riprap material for the project, and an Ahtna subsidiary (ACPPC) is responsible for constructing the project. ACPPC has recently purchased three excavators, twin scales, GPS for one of the excavators, and a hydraulic breaker attachment for this project. In addition to the equipment purchased, ACPPC will utilize existing equipment to support the successful project completion.

This project will require various heavy equipment operators in both the Cantwell Rock Quarry and Tanana Sill Groin locations. ACPPC will be looking for shareholders with experience operating track excavators, wheeled loaders, articulated rock trucks, as well as scale operators and mechanics. To learn more, please contact the Ahtna Shareholder Enrichment team by calling 907-868-8221 (Anchorage) or 907-822-3476 (Glennallen) or by emailing shenrichment@ahna.net.

Laredo MPP Court Security Officers practice courtroom observation procedures.

ASTS MIGRANT PROTECTION PROTOCOL PROJECT PROFILE

BY ADONAY "ANDY" DAVILA, PROJECT MANAGER, ASTS

In 2019, Ahtna Support and Training Services, LLC (ASTS) was tasked with starting up and providing services for the newly created Immigration and Customs Enforcement (ICE) Migrant Protection Protocol (MPP) program. In less than 90 days, the ASTS team was able to staff, develop operating procedures, and procure the necessary equipment, supplies, and uniforms to perform a service never before provided by the government. In 2021, the MPP program resurfaced and was again awarded to ASTS due to the superior and reliable service provided during the initial contract. The project entails providing supervision, labor, equipment and services to meet the migrant escort and observation needs of the temporary immigration hearing facilities at U.S. government facilities located at the Ports of Entry in Brownsville and Laredo, Texas. The MPP project has created a total of 73 jobs in South Texas.

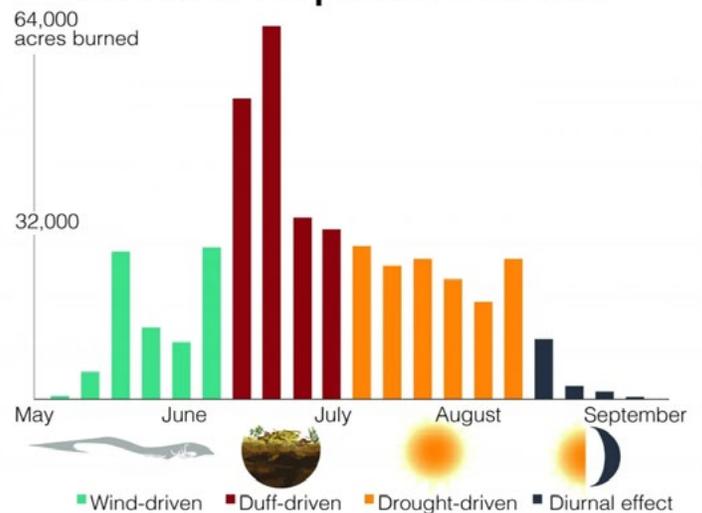

FIRE PROTECTION ON AHTNA LANDS

BY JOHN LEONHART, MANAGER, AI LAND AND RESOURCES DEPARTMENT

Spring is fast approaching and with it comes fire season in the Copper River Valley. Although snowfall has been substantial over the winter, wildfire is an ever-present danger in the region, and climatological changes, spruce bark beetle infestations, and an expected return of tourism suggest increased fire danger will continue into the near future. The Alaska fire season has been divided into four stages based on the historical fuels buildup, which represent the typical trend in seasonal landscape flammability. The following stages provide a representation of seasonality for the fire year in Alaska, with emphasis on the boreal Interior:

- Wind-Driven Stage begins in early April and corresponds to the period before full green-up when the soils are still cold and dead grasses and litter within and around communities are favorable for ignition of primarily initial attack fires and for incidents with rapid spread and growth.
- Duff-Driven Stage begins in early June and relates to longer days around the summer solstice that produce peak heating of spruce canopies and drying of the surface and immediately adjacent subsurface litter and duff fuels. Fires occurring during this period are characterized by episodic growth events related to hot, dry, sunny days, and can produce high flammability despite green fuel beds. This is normally the peak of the Alaska fire season when fires exhibit a high resistance to control.
- Drought-Driven Stage begins in the middle of July and reflects less common later-season fire growth potential and fewer additional lightning ignitions. This stage occurs in years when mid and late-summer rains do not materialize sufficiently to truncate significant fire growth potential. Fires that burn late in the year exhibit a high resistance to extinguishment. Severe drought indices can lead to fires that overwinter and re-ignite the following spring.
- Diurnal-Effect Stage begins in mid-August and is influenced by rapidly shortening days with significant reduction in solar radiation and resultant moderation of daytime temperatures and relative humidity. Shortened burn periods and high overnight

Seasonal fire phases in Alaska

Credit: Grabinski, Z. (2020). Seasonal fire phases. *Alaska's Changing Wildfire Environment*. Grabinski, Z. and H. R. McFarland, www.frames.gov/afsc/acwe.
Data source: Alaska Interagency Coordination Center

humidity recovery limit the spread potential of these fires. Significant fire activity during this period is unusual and has not occurred since 2004 and 2005. Late season fire activity in 2019 was limited to areas affected by a strong wind event in mid-August, not from statewide drought, and was localized to the Susitna Valley and the Kenai Peninsula.

The 2022 fire potential outlook for the Copper River Region mirrors that of the overall fire potential for the State of Alaska. With above-normal snowpack statewide, expect a late start to fire season in the central and southern Interior and northern Panhandle. Fuels will become snow-free in late April or May, with surface fire potential rising quickly through May and early June toward the end of the wind-driven stage.

By the heart of the fire season, during the duff-driven stage, melt

date is irrelevant and activity depends on fuel dryness, current weather conditions, and lightning or human ignitions. Resistance to control will increase normally and there will be some very busy periods driven by lightning, low humidity, and wind events.

With normal temperatures forecasted for mid-summer, most areas will have typical fire conditions through late July and into the drought-driven stage. If fires from the duff stage have not been controlled, they will exhibit higher resistance to extinguishment and increase acreage during hot and dry periods.

End-of-season rains are expected to arrive on time, so mid to late August fires will no longer be supported by deeper fuel layers. Existing fires will show some activity during the day, but resistance will be minimal throughout the diurnal effect stage.

It is essential that everyone using Ahtna land be responsible for safe fire practices:

- Locate your fire in a place where it cannot spread
- Use existing campfire sites wherever possible
- Dig campfire pits all the way through the duff layer to the mineral soil or permafrost
- Keep water nearby in case things get out of hand

When extinguishing a fire, be sure the site is cool to the touch before

vacating the area. In addition to preventing wildfires, the public needs to be vigilant and promptly contact the proper authorities to report fires spotted on the landscape. **If a fire is observed, the first course of action is to immediately call 911 to report the fire. Any fires located on Ahtna land should also be reported to the Ahtna, Inc. Land Department in Glennallen at (907) 822-3476.**

An Alaska Department of Natural Resources (DNR), Division of Forestry Burn Permit is good for one year and is required from April 1 through August 31 and at other times of the year as mandated by the DNR for burn barrels, maintained lawns less than 1 acre in size, and brush piles. Cooking, warming, and signaling fires less than 3 feet in diameter and 2 feet in height or commercially manufactured cooking devices (including grills, barbecues, camp stoves, hydronic heaters, etc.) do not require a burn permit but must comply with the Alaska Wildland Fire Protection statutes and regulations, and follow the manufacturers' guidelines for safe use. Burn permits can be obtained from the Division of Forestry website (forestry.alaska.gov), the local Division of Forestry Office in Tazlina, and participating vendors in the Copper River Basin.

HELP PROTECT AHTNA'S CULTURAL RESOURCES

BY TAÑA FINNESAND, CULTURAL RESOURCE TECHNICIAN, AI LAND DEPARTMENT

What is a cultural resource? A cultural resource can include an archeological site, artifact, old structure, or even a natural feature that is significant to a group of people traditionally associated with it. Copper River people's cultural resources leave an extraordinary record of their remarkable heritage. This heritage is often threatened by construction work, looters, vandals, or people who pick up and take home artifacts. When artifacts are stolen and archeological sites are destroyed, important clues and reminders about the past are gone forever. This lost history hurts all Ahtna people.

There are laws to protect artifacts and sites on federal, state and Native American lands.

The Archaeological Resources Protection Act of 1979 (ARPA) protects against looting, vandalism and other harmful acts on public lands, Indian lands and private land. Section 6(c) prohibits interstate or international sale, purchase, or transport of any archeological resource excavated or removed in violation of a state or local law, ordinance, or regulation. First-time felony offenders can be fined up to \$20,000 and imprisoned for up to one year. Second-time felony offenders can be fined up to \$100,000 and imprisoned for up to 5 years. Section 8(b) of the statute allows the court or civil authority to punish convicted violators through forfeiture of vehicles and equipment used in the violation of the statute.

The Native American Graves Protection and Repatriation Act of 1990 (NAGPRA) addresses human remains, prohibiting the intentional excavation and removal of Native American human remains and certain cultural property from federal or tribal lands without a permit and without consultation with or permission from Indian Tribes when required.

Finally, artifact looting and disturbance of cultural and archeological properties are governed by Alaska state laws. Protections are strongest for burials. AS 11.46.482(a)(3), enacted in 2001, provides that the "intentional and unauthorized destruction or removal of any human remains or the intentional disturbance of a grave" by an unauthorized person is a class C felony. Theft of artifacts and desecration of cultural sites are subject to penalties under trespass and property laws.

Leave the artifacts where you find them! Please don't pick it up, move it, bury it or take it home. Note where you are. Take a picture of the artifact where you found it.

AHTNA PLANTS: HARVEST GUIDELINES AND SEASONS

Harvesting Guidelines

- Get permission from landowner.
- Make sure the plant is strong and vital and harvest in the proper growing phase. Plants are particularly susceptible to pollution; harvest away from roads and other sources of contaminants, such as downstream from livestock or areas known to have had pesticide use.
- Never take more than 25% from a given stand and make sure there are at least 10 specimens of the plant in the surrounding area before harvesting. Always leave the largest and smallest members of the plant community. Never harvest endangered or threatened species.
- Monitor harvest areas every year to ensure the health of the plant community.
- Properly identify the plant. There are many lookalikes that may cause adverse effects.
- Don't harvest more than needed. This seems obvious but can be tricky for beginners. You can always return to the area if needed.

Collection Seasons

- Roots – Collect roots in early spring or late autumn, before the plant buds or after the aerial part of the plant begins to wither. Plants are usually dormant during these times and store their nutrients in the roots.
- Bark – Late spring and early summer is a good time to collect plants for their bark. The plants are in their growing phase and have ample sap. The bark has more nutrients at this time and is more easily separated from the woody parts.
- Stems, branches, leaves – In general, whole plant parts should be collected in the late spring and early summer when they are growing luxuriantly.
- Flowers – Collect flowers for medicinal purposes as buds are just beginning to bloom to avoid loss of fragrance and petals. Collect over several separate occasions to allow the plant to recuperate.
- Fruits – Collect when ripe. Some species may need to be collected before the fruit has fully ripened.
- Seeds and kernels – Gather when fruit is completely ripe. Fruits that could crack and lose their seeds are collected on sunny days as soon as they are ripe but have not yet cracked.

SHAREHOLDER SPOTLIGHT

JESSICA JACOBSEN ON WORKING FOR ALYESKA PIPELINE

Jessica Jacobsen's work on the Trans-Alaska Pipeline System (TAPS) is just part of the way she makes an impact around our state and shares her knowledge and passion with others. Jessica grew up in the Ahtna region along TAPS and found opportunities with Alyeska scholarship partners to complete college, gain experience through internships, and find mentors in the industry while in school. In March she was promoted from Alyeska Pump Station Maintenance Planner to an Implementation Assurance Lead where she now serves as a Construction Manager. Jessica also gives back by holding leadership positions on boards that empower and inspire women professionals and youth. A video about Jessica's life and work that played at the Alaska Federation of Natives Convention can be viewed at www.youtube.com/watch?v=J_yAFAHgXAU.

"Jessica Jacobsen is an Ahtna shareholder and an outstanding example of our workforce. She has a wealth of experience working along TAPS in many different capacities as both an employee and contractor."

-Brigham McCown, former President, Alyeska Pipeline Service Company

"When I think about Jessica she used all of the tools. She got a mentor, she asked questions, she did career development. To me that showed that she was interested and wanted to go the extra mile and I think it really did pay off for her. I'm proud of her."

-Tracey Mueller, Employee Relations and Recruiting Manager, Alyeska Pipeline Service Company

CRNA TRAINING & SCHOLARSHIP PROGRAM

Ahtna Shareholder Enrichment works in partnership with the Copper River Native Association (CRNA) and Cook Inlet Tribal Council (CITC) to connect shareholders to high-demand occupations through education and job opportunity. Last quarter we spoke with CITC Education and Training Program Manager Charlene Miles. This quarter we had the opportunity to talk with Tell Mentasta Hand, Life Skills Coach at CRNA Tribal Community Services. Hand is an Ahtna shareholder from the village of Kluti-Kaah and a member of the Tsisyu (Paint) Clan.

1. What does the CRNA program offer?

We assist Tribal members with their goal to become employed. We offer assistance with GEDs, resume building, interview skills, training and development for an identified career goal. Scholarship programs are available for higher education or vocational training.

2. Who is eligible for the program?

Enrolled Tribal members who reside in Cantwell, Gakona, Gulkana, Kluti-Kaah and Tazlina are eligible.

3. What are some examples of expenses that are covered under the program?

CRNA can assist with monthly expenses for utilities, rent, food and household items. Eligibility for the services is based on meeting self-sufficiency plan goals.

4. Is there an application deadline?

Tribal members can apply at any time. Required backup documents must be submitted within 30 days of applying.

5. How can shareholders apply for funding?

They can stop by CRNA and request an application or visit Tribal Community staff in the office for assistance. Visit www.crnative.org to apply online.

6. What advice do you have for shareholders interested in applying for a trade/vocational scholarship?

Plan ahead, assess your skills, determine what career you are interested in, develop goals, and meet the requirements of your Individual Self-Sufficiency Plan to become eligible for training and development.

7. How do Ahtna and CRNA work together to support shareholders in the trades?

The goal is to have everyone succeed. CRNA and Ahtna share the financial aid expense, refer clients to each other, and collaborate on a job fair.

CAREER ADVANCEMENT OPPORTUNITIES FOUND IN CDL TRAINING

Getting a Commercial Driver's License (CDL) can open a world of employment opportunities and is not limited to truck driving. An abundance of job positions require a CDL. You need one if you want to work as a school bus driver, city bus driver, tour bus driver, hazmat carrier, ice road driver, or sanitation worker. It's smart to get CDL training if you're planning on a career as a heavy equipment operator. Many heavy equipment operator jobs require the applicant to be skilled at operating multiple types of vehicles, including ones that require a CDL. If you are interested in pursuing your CDL, funding may be available through Ahtna's Vocational Scholarship Program. Reach out to Shareholder Enrichment for details.

Katrina Moran

Please join us in congratulating the following shareholders who recently obtained their CDL or Operators Certification!

Shareholder	School
Dexter Reedy	Alaska Driving Academy
Gabriel Jones	Northern Industrial Training
Paula Nicklie	Associated Training Services
Federico Johns	Northern Industrial Training
Michael Voyles	West Coast Training
James King	Alaska Driving Academy
Katrina Moran	Alaska Driving Academy
Russell Yates	Alaska Driving Academy

"I recommend Alaska Driving Academy and the Ahtna Vocational Scholarship to all shareholders. A huge thank you to Ahtna for the support."

-Russell Yates

AHTNA, INC. DIRECTORS SELECT CLINT MARSHALL TO FILL BOARD SEAT

The Ahtna, Inc. Board of Directors is pleased to announce the selection of Clint Marshall as a new Board member. Marshall is filling Seat J, Tazlina on Ahtna, Inc.'s 13-member Board. Pursuant to the Ahtna bylaws, the Board of Directors selected Marshall at a meeting held on Tuesday, February 15, 2022. Marshall will serve the remainder of the Seat J term that ends in 2023.

Marshall is a member of the Udziyu (Caribou) Clan. He has four children and resides in his childhood home of Tazlina with his wife Katherine. Marshall is the grandson of the late Robert Marshall, Ahtna's first president, and the late Mae Marshall, and the son of the late Elmer Marshall, a former Ahtna, Inc. Board member, and Vicki Bukovick.

Marshall served for 26 years as an officer in the U.S. Marine Corps (USMC), where he earned his commercial pilot's certificate and became a naval aviator. He currently serves as a lead pilot for L3Harris Technologies. Marshall has participated on numerous councils and boards, including the USMC Commanding Officer Advisory Board and Aircraft Mishap Board. Marshall earned a Bachelor of Science in general studies with a concentration in history from Campbell University, graduating magna cum laude. He is passionate about education and the sustainment of culture, land and customary and traditional ways for the Ahtna people. Marshall participated in the Copper River Watershed Project as a strong voice for customary and traditional fishing rights.

Marshall stated, "Ahtna, Incorporated is without question a center of gravity, a voice, and an important resource for the Ahtna people. I am proud to be a voice from Tazlina Village and a part of the team that steers Ahtna towards great success for generations to come."

Seat J became vacant last December upon the passing of long-time Board member Dorothy Shinn. Shinn was a member of Ahtna's initial Board of Directors and a powerful advocate for Ahtna youth, education, and passing on and teaching the Ahtna culture. For many years, she organized student recognition dinners at the end of each school year and was always one of the first to volunteer to help fundraise for those in need. We dearly miss her warmth and strong leadership.

SHAREHOLDER SERVICES UPDATES

MISSING SHAREHOLDER ADDRESS LIST

Ahtna has received returned mail for the following shareholders. It is important that your mailing address and other contact information is kept current so that you receive dividend distributions and other mail from Ahtna, such as company announcements, newsletters and annual meeting materials.

If you are on the list below, you can easily update your contact information using the self-service shareholder portal at MyAhtna.com or contact the Shareholder Records Department at (907) 822-3476 or shservices@ahтна.net.

2022 ANNUAL MEETING ANNOUNCEMENT

The 2022 Annual Meeting of Shareholders will be held on **Saturday, June 4, 2022 at Glennallen High School**. Registration opens at 8 a.m., and the meeting will begin at 9 a.m.

The Annual Meeting packets mailed on April 22 include important information on this year's meeting and proxy process. Only one Annual Meeting packet will be sent per household. Proxy voting forms and PIN letters will be mailed separately to individuals, and voting will open on April 29.

Shareholders may attend the Annual Meeting in person at the Glennallen High School gymnasium. Voting shareholders can also watch the meeting live stream by logging into www.ahtnavote.com the day of the meeting.

You can find more information about this year's Annual Meeting at www.ahtna.com/shareholders/annual-meeting-of-shareholders. Follow us on Facebook for the latest Annual Meeting updates and reminders. You can also opt-in via the MyAhtna portal to receive text message updates from Ahtna. Signing up is easy. In MyAhtna, click on My Contact Info>Mailing Preferences to view options and change your delivery preferences. If you have questions or need additional information, contact Shareholder Services at (907) 822-3476 or shservices@ahtna.net.

HONOR GUARD

Ahtna would like to invite all shareholder veterans to serve as honor guard at the Annual Meeting. Those interested will need to arrive between 8:15-8:30 a.m. at the Glennallen High School. Carlene Pete can be contacted with any questions at (907) 822-3476. Thank you!

ANNUAL MEETING TEMPORARY HIRES

Ahtna is accepting applications for:

- Set-up/take-down crew members
- Greeter/Elder assistant
- Janitor
- Youth servers — to assist Elders with drinks, meals and snacks (must be 14 – 19 years of age, work attire is black pants, white dress shirt and good shoes)

Please visit www.ahtna.com/careers to apply for any of the positions.

Please note: To be able to work at the Annual Meeting, new-hire paperwork will have to be completed online. Staff can assist with this as needed. Additionally, all new hires must provide identification and complete a U.S. Citizenship and Immigration Services (USCIS) form I-9. For questions regarding which identification documents are approved by USCIS, please contact Moe Tigilau (907-868-8240) or mtigilau@ahtna.net.

If you have any questions, please contact Shareholder Enrichment at (907) 868-8250 or shenrichment@ahtna.net or the Ahtna Human Resources Department at (907) 868-8250 or ahtnajobs@ahtna.net.

2022 DIRECT DEPOSIT DRIVE

All shareholders signed up for direct deposit as of November 4, 2022, will be entered into a drawing for cash prizes: (3) \$200, (1) \$300 and (1) \$500!

Shareholders are strongly encouraged to sign up for direct deposit, the fastest and most reliable method to receive dividends. By choosing direct deposit, you will receive your funds faster than by mailed check. You will also eliminate the risk that your check may be lost or stolen and having to wait 90 days for replacement.

Signing up is easy and convenient. Please complete the direct deposit form with routing number and full account number: www.ahtna.com/directdeposit.

Shareholders can update their contact information using the shareholder portal (MyAhtna.com) or by emailing Shareholder Services at shservices@ahtna.net.

ONLINE SHAREHOLDER RESOURCES

Ahtna offers a variety of online resources to shareholders. Below is a listing of Ahtna sites that you can bookmark for future use.

Online Voting System: www.ahtnavote.com

Proxy voting for the 2022 Ahtna election will open on April 29, with the easiest voting method being the eProxy website. Shareholders will be mailed a unique shareholder ID and PIN on April 22 to be used for logging in. You will want to store these credentials in a safe place for reference — with them you can vote your proxy for the election of directors, view candidate videos and statements, and watch the Annual Meeting live stream. If you have misplaced your ID or PIN, please contact the Inspector of Elections (Altman, Rogers & Co.) at 907-274-2992.

MyAhtna Shareholder Portal: www.myahtna.com

MyAhtna is a free, online resource that provides shareholders easy access to a wealth of information. Shareholders can conveniently update contact information, view and print financial history, view information about shares owned, view and print tax information, view and update information for the minors and wards of custodians, view and print stock wills, sign up for text alerts, opt-in to receive materials such as the Kanas electronically, and RSVP for events.

Contact Shareholder Services at shservices@ahtna.net or (907) 822-3476 for MyAhtna portal login assistance or questions.

If you are interested in any of the programs highlighted below, or are looking for educational, training or career assistance, please email shenrichment@ahtna.net or contact Tracy Parent in Anchorage at (907) 868-8250 or Starr Knighten in Glennallen at (907) 822-3476.

Walter Charley Memorial Scholarship: www.ahtna.com/scholarship

The Walter Charley Memorial Scholarship (WCMS) Program provides funding to assist Ahtna shareholders in meeting their educational goals. The priority of the WCMS is to help support direct educational expenses including tuition, student registration fees, course-required books/supplies, and other school-related expenses.

Job Application Site: www.ahtna/careers

To seek a position at Ahtna, you must apply online. Simply click on the “Apply for Job” button at the bottom of each job summary. You can submit a resume by uploading and attaching it to an online application.

For log in assistance, contact Human Resources Recruiter Linda MacCubbin at lmaccubbin@ahtna.net or (907) 868-8250.

Ahtna Vocational Scholarship: www.ahtna.com/vocational

The goal of the Ahtna Vocational Scholarship Program is to enhance shareholder careers through funding for vocations and trade schools such as heavy equipment operator, Commercial Driver’s License (CDL), cosmetology, HVAC/refrigeration, painting, and veterinarian technician. Upon approval, up to \$12,000 is available for tuition to be paid directly to the training program. If your program costs more than \$12,000, other financial aid programs can be recommended to help cover the difference.

Career Assistance Program: www.ahtna.com/CAP

The Shareholder Enrichment Career Assistance Program provides Ahtna shareholders with funding to assist with pre-employment preparation, job improvement, and training. This program has provided funding for professional licensing in fields such as real estate, Certified Public Accounting (CPA), asbestos abatement, and medicine. Financial assistance is provided for apprenticeship training and related expenses such as transportation, lodging, relocation costs, initial union dues, work clothing and gear.

GET YOUR GRADUATE GIFT REQUESTS IN

Shareholders receive a congratulatory gift from Ahtna for graduation. Graduate gift requests can be turned in at any time, but the submission deadline to be recognized and have your accomplishment celebrated at the Annual Meeting and in the Summer Kanas is **Friday, May 20th**.

HERE’S HOW IT WORKS:

Go to www.ahtna.com/graduate and fill out the electronic form.

REQUIREMENTS FOR THE GIFT INCLUDE:

- Must be an Ahtna shareholder holding voting shares.
- Must be receiving a high school diploma or certificate of completion, GED, certification of journeyman level in a trade, or associate, bachelor, master, or doctorate degree.
- Must submit all required documents within one year following graduation or receipt of degree, diploma, or certificate. Required documents include graduate information form, IRS W9 form, and copy of diploma or degree.

Graduate gift requests are managed separately from Class L Stock and require their own submission of proof of graduation.

Approved applicants will be recognized at the Annual Meeting and in the Summer Kanas; however, gifts will be tendered upon receipt of all necessary documents at the discretion of management.

Contact Shareholder Services with any questions at graduate@ahtna.net.

WALTER CHARLEY MEMORIAL SCHOLARSHIP PROGRAM FUNDS OVER \$1 MILLION IN SCHOLARSHIPS

Since taking over administration of the Walter Charley Memorial Scholarship Program in 2019, Ahtna has contributed over \$1 million for the education of our shareholders.

DON'T FORGET TO APPLY: **June 15-July 15** WALTER CHARLEY MEMORIAL SCHOLARSHIP PROGRAM

The Walter Charley Memorial Scholarship program assists Ahtna shareholders with meeting their educational goals by funding full and part-time students.

Applications will be accepted online for the Fall 2021 semester from **June 15-July 15** at: www.ahtna.com/scholarship.

Supplemental documents will be due by August 5.

Check the website for the latest information. Any questions can be directed to Tracy Parent, Shareholder Advocate, at (907) 868-8250 or scholarship@ahtna.net.

Scholarship Award per Application Period: *

Undergraduate		Graduate	
Part-Time	Full-Time	Part-Time	Full-Time
Up to \$2,000	Up to \$4,000	Up to \$3,000	Up to \$6,000

*All awards are subject to available funding and the number of eligible applicants at each deadline.

NEW SCHOLARSHIP OPPORTUNITY: NATURAL RESOURCES

Ahtna is excited to announce a new scholarship for shareholders pursuing a Natural Resources degree or related field of study (forestry, wildlife, etc.). At a minimum, there will be one Natural Resources Scholarship (NRS) available each calendar year. Scholarship preference will be given to accredited programs in Alaska. Scholarship recipients who seek a second NRS award are required to become an employee of Ahtna, Inc. and work at least 400 hours for the Ahtna, Inc. Land Department in the 12 months preceding their second year in college/university.

Scholarship amounts:

1. Up to \$15,000 per semester, \$120,000 individual lifetime.
2. NRS includes tuition, books, student housing, and college/university fees. For this scholarship, funding can also cover required course equipment, childcare, and other related expenses.

The NRS program will follow the same application process as the Walter Charley Memorial Scholarship program. Applications will be accepted online for the Fall 2022 semester from June 15 through July 15 at: www.ahtna.com/scholarship. Supplemental documents will be due by August 5.

If you have any questions regarding the application process, please contact the Scholarship Administrator at (907) 868-8250 or scholarship@ahtna.net.

Scholarships Available for Prince William Sound College's Natural Resources Technician Program

Prince William Sound College (PWSC) will be offering a 16-credit Natural Resources Technician program at their Valdez campus this fall. The program is a 12-week intensive experience that covers the knowledge and skills needed for an entry level position in a natural resources career. Tuition and housing scholarships are available for high school seniors.

Visit www.pwsc.alaska.edu/academics/natural-resources for additional information.

AHTNA CAREERS – HIRING NOW!

We are here to support you in your career goals, whatever they may be. The primary goal of Shareholder Enrichment is to maximize shareholder potential by developing and engaging shareholders as they pursue meaningful career and life goals. You just have to take the first step and call the Shareholder Enrichment team at (907) 822-3476 (Glennallen) or (907) 868-8250 (Anchorage).

Shareholder Resumes Needed! A Great Resume Opens More Doors

Ahtna Shareholder Enrichment has created a new database to record Ahtna shareholder resumes. We need your help to make sure we have updated information in our system. Even if you're not currently seeking employment, please email your resume to shenrichment@ahtna.net. This information will help us to support you in your career pursuits. Thank you for your assistance with this project.

You can contact Shareholder Enrichment if you need assistance creating a resume or to have your resume reviewed and polished before applying for a job. Ahtna has contracted with a company to assist shareholders in the resume writing process. Shareholder Enrichment also offers interview skills coaching and preparation tips.

Make An Impact With Your Resume: Things to consider...

Will your Resume be scanned by a computer or database?

➔If YES, then... make sure you use keywords like industry language, the job title and other terms used in the job announcement

Will your Resume be read by an HR professional?

➔If YES, then... make sure you used strong action words and industry language

Are you emailing your Resume?

➔If YES, then...

- Keep format simple
- Use strong and descriptive file names
- Use the subject line effectively
- Use a professional email address

VOTING: A KEY RESPONSIBILITY OF AHTNA SHAREHOLDERS

One of the main responsibilities of being an Ahtna shareholder is to vote in director elections and on other matters presented for a shareholder vote. Voting in elections ensures that your voice is heard.

Shareholders who own voting shares are responsible for ensuring the long-term strength of Ahtna by electing a Board of Directors. In addition to providing guidance and leadership, the Board establishes policies for achieving Ahtna's strategic goals.

What is a proxy?

A proxy is a way for a shareholder to vote at the Annual Meeting even if the shareholder cannot attend the meeting in person. A shareholder may give his or her proxy to another voting shareholder or to the Ahtna Election Committee. The proxy authorizes the proxyholder to represent and vote the shareholder's shares. The proxy may direct how the proxyholder is to vote, or it may leave the choice to the proxyholder's discretion.

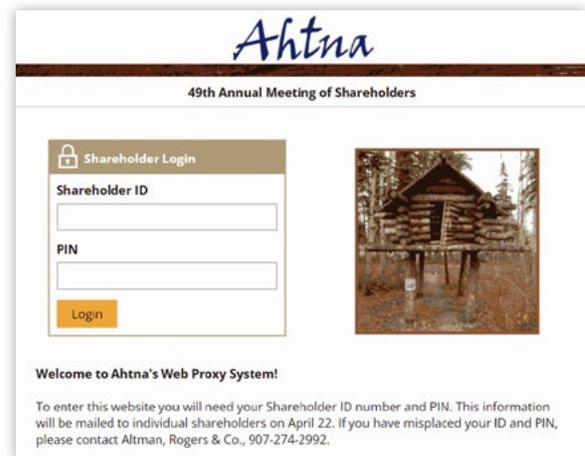

To be valid, proxies must be received by the specified deadline. Proxies may be voted online using the e-voting website or sent to the Annual Meeting election inspector by email, fax or mail. For more information, please refer to the Proxy Statement in your Annual Meeting packet.

What is a quorum?

A "quorum" is the minimum number of shares that must be present or represented at a shareholder meeting in order to conduct elections and other business. Currently for Ahtna, a quorum means at least 33.33 percent (one third) of eligible voting shares must be present in person or by proxy in order to hold the Annual Meeting of shareholders.

How else can I stay involved?

Every shareholder who votes can be a catalyst for change. In addition to submitting a proxy, shareholders can stay involved with the Corporation by spreading the word when Annual Meeting materials are received, keeping a valid mailing address on file with the Ahtna Shareholder Records Department, reading shareholder news, and attending nearby shareholder events.

COMMUNITY NEWS

IN LOVING MEMORY RAY NEELEY

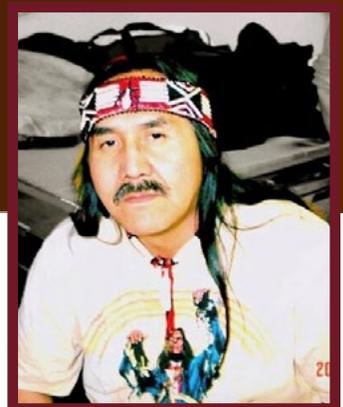

JANUARY 14, 1959 - JANUARY 18, 2022

It is with a heavy heart that we announce the passing of Ray Neeley, former Ahtna Board member and Ahtna Construction & Primary Products Company (ACPPC) employee. Neeley was born on January 14, 1959 to Ben and Hazel Neeley at Faith Hospital in Glennallen, AK. He was a great supporter of education and proud of those who graduated and went on to higher education, and those who kept trying to finish their education.

Neeley formerly served on several boards including Ahtna, Inc., Gulkana Village Council, Copper River Native Association and Copper River Basin Regional Housing Authority. He was a strong advocate for subsistence rights and served on the Ahtna Customary and Traditional (C&T) Committee. He was eager to pass on his knowledge of how to live off the land to anyone who would listen.

Neeley had many different jobs but was best known for his work as a Teamster with ACPPC. He enjoyed truck driving and teaching others how to drive trucks. He was very resourceful and independent, finding ways to fix vehicles and other things with whatever he had on hand.

Neeley's family shared that he will be missed by many and remembered for his leadership, love, teachings, great sense of humor, testimony of faith, and his trail of recovery. He is survived by his daughter Raedeen, son Franklin, grandchildren Elijah and Rayah, and sisters Lorraine (Nick), Eveline, and Roberta.

ALASKA NATIVE VIETNAM VETERANS LAND ALLOTMENT UPDATE

The Vietnam Veterans are known as the forgotten veterans. This is even more true for the Alaska Native veterans who served courageously, but unfortunately were excluded from receiving Native Veterans Allotments in the late sixties and early seventies.

Through passage of the 2019 Dingell Act, Alaska Native Vietnam-era Veterans who served between Aug. 5, 1964 and Dec. 31, 1971 are allowed to select from 2.5 to 160 acres of federal unencumbered lands. The available federal lands for selection are limited in quality and location.

Recently, the State of Alaska has offered to make available certain selected lands across the state based on their priority list rankings from 2-4. State selections prioritized as number 1 will likely not be available.

The steps to select State lands are:

1. Identify lands that the Alaska Native Vietnam Veteran desires to own.
2. Meet with Bureau of Land Management (BLM) staff and fill out an application. * The veteran will need to have their current contact information updated and military records available

at the time of application. The application period opened on December 28, 2020, and will expire on December 29, 2025. Contact the BLM Native Allotment Section with questions at (907) 271-5998 or CGrimes@blm.gov.

3. The BLM will provide the Vietnam Veteran's land selection to the State of Alaska Department of Natural Resources, Division of Mining, Land and Water. The State will make a determination on the selection within 30 days.

*BLM Field Office staff in Glennallen are available to assist Native Alaska Vietnam Veterans with the application process.

Get the latest updates, a map of lands available for selection, and answers to frequently asked questions about the program at www.blm.gov/alaska/2019AKNativeVetsLand.

If a Vietnam Veteran or their heir needs assistance in identifying available State lands, please contact the Ahtna Land Department at (907) 822-3476 or landdepartment@ahтна.net.
